Register! Register!! Register!!!

The Books will be opened at Sardis on the 2nd, 3rd, and 4th of November, and all who have not already registered should register then.

We don't mean to do any one, Oh! no, that is entirely foreign to our purpose, but we only intend to remind some of our readers that they are indebted to us and that we would like to see the color of their money, just to find out whether they have got any money or not, because we have not seen them with any in these many days, and we like to know how our friends are succeeding in their search after the filthy lucre. Don't be afraid we will be insulted if you pay your accounts.

Governor Alcorn.

Governor Alcorn is on the stump and manfully meeting the champions of Democracy. He slashes right and left, and gives them no quarter. He walks over the course like a conquering hero, and has the whole Republican party at his back to endorse him. His triumph this fall will be even greater than it was in 1869. The Democracy stands in dismay in full view of the awful defeat that stares them in the face.—Coahoma Delta.

The editor of the Delta is exactly wrong about the success of the Governor. He has, on the contrary, been badly whipped on every occasion that he has met with the opposers of his villainous administration, and the election on the 7th of November will show that Gov. Alcorn with his party have been repudiated and dethroned from power.

No Communion With Bolters.

Down with bolters is the Republican watchword! A bolter is not worthy the name of Republican! The bolter would sell your rights to gain his selfish ends. They only run for the office that pay large salaries. Bolters never run for the Legisla-

ture and officers that do not pay. It is money they want, and they would sacrifice the Republican party, and turn over everything to the Conserva-tives, or Democrats, which are the same, to put money into their pocket etc. Republicans, beware of the bolters.

The Jackson Pilot gives the above advice to the Radical party. The Pilot should have said that every member of the Radical party in the State, would bolt from the party if they were only offered a larger price than they are getting now, and that all of the party can be bought for so many dollars and cents.

The Pilot ought not to complain so bitterly at the action of its party in bolting, because its editors ought to know, from association that the whole party are nothing but a pack of office holders and corruptionists, and that the party must dissolve itself soon or late, from the fact that there are not offices enough for all

of the members and not one of the party would be connected with the party unless he held an office.

Edward Palmer Watson.—This distinguished pedestrian will be on hand at our State Fair, notwithstanding the postponement, as will be seen by the following extract from a letter from him, dated Macon, Ga., 28d inst., addressed to the Secretary of the Association.—Cherish.

Far be it from me that I should place any obstacle in your path, and however much it may interfere with my plans for the coming month, be assured I am only too happy to have an opportunity to manifest my appreciation of your courteous treatment towards the officers of the Georgia State Fair and myself. Therefore, in reply to your question I would say, you can depend on my appearance in Jackson in accordance with the original contract, on Thursday and Friday November 16th and 17th.
